

Junior Fast-Start — Ramp Up Fast

Filing tag (please leave this line unchanged): TECH-4 · Shareable · Visibility: Team-shareable

A senior's distilled guide to the things that help a new or junior tech get productive fast. Write it as if you're briefing someone joining the team — this is how we ramp people up. Keep it general to share across the team, or write it for a specific client (then it gets filed against that account).

FAST-START GUIDE — if kept general (no client data) it's shareable across the whole team. If you add client-specific detail, treat it as client-specific: high-level only, no passwords, IP addresses or secrets.

Author (your name): _____

Topic / role (or client, if specific): _____

Date: _____

Who this is for & the role in a nutshell

One short paragraph — what does this person actually do day to day?

Top things to learn first (aim for 10–20)

In priority order — number them 1, 2, 3... These are the things that, once understood, make everything else click.

Tools you'll use every day

The main tools and what each is for.

Where to find answers / who to ask

How to get unstuck, and who owns what.

Common early mistakes & how to avoid them

The traps newcomers fall into.

First week & first month — what good looks like

A simple sense of progress to aim for.

Habits to build from day one

The small disciplines that pay off later.
