

Standard Procedures & Routines

Filing tag (please leave this line unchanged): MSP-2 · Client-specific · Visibility: MSP-confidential

The recurring work for this client and how it's done — a reference the whole team can follow. Capture the procedures that currently live mostly in your head.

CLIENT-SPECIFIC — belongs to this MSP. Handle per the client's data agreement. Keep it **HIGH-LEVEL**: no IP addresses, hostnames, or sensitive network/configuration detail, and never passwords, keys or secrets. The shape of the environment is enough — describe **WHERE** access lives, not the credentials.

Author (your name): _____

MSP / Client: _____

Date: _____

Routine tasks (daily / weekly / monthly)

What recurring tasks happen, and on what rhythm?

Procedure A

Name it, say when it's used, then the steps.

Procedure B

Name, when used, steps.

Procedure C

Name, when used, steps.

Other procedures worth recording

Add any others here.
