

Known Issues & Resolutions

Filing tag (please leave this line unchanged): MSP-3 · Client-specific · Visibility: MSP-confidential

Recurring issues in this environment and how they're resolved — so the next person isn't solving them from scratch. Each entry: symptom, cause, resolution, prevention.

CLIENT-SPECIFIC — belongs to this MSP. Handle per the client's data agreement. Keep it HIGH-LEVEL: no IP addresses, hostnames, or sensitive network/configuration detail, and never passwords, keys or secrets. The shape of the environment is enough — describe WHERE access lives, not the credentials.

Author (your name): _____

MSP / Client: _____

Date: _____

Issue 1

Symptom → likely cause → how to resolve → how to prevent.

Issue 2

Symptom → cause → resolution → prevention.

Issue 3

Symptom → cause → resolution → prevention.
